77 West Jackson Blvd.
Chicago, IL 60604-3590

Mr. Pham,

During your visit to our facility on March 3, 1997 you requested some information that required further investigation on my part. I have since obtained this data and am forwarding them to you.

CCL Custom Manufacturing-Niles came into existence on October 20, 1992. Until that date the facility had been functioning as the Barr Company.

Our maximum aerosol production if we ran at optimum conditions would be 400,000 units/day.

If any additional information is required please feel free to contact me at any time.

CCL Custom Manufacturing, Niles
